EDUCATION

B.TECH Information Technology, Sri Shakthi Institute of engineering and technology Coimbatore 7.9	06/2023 – 03/2027
SSLC, HSC, Government Higher Secondary School Sirumugai Coimbatore 83%	06/2016 – 03/2023

SKILLS

LANGUAGES

C, Java, HTML, CSS, JavaScript, SQL

DATABASES

MongoDB, MySQL

SOFT SKILLS

Team Collaboration, Fast Learner, Problem Solving,
Critical Thinking, Communication

FRAMEWORKS

ReactJS, NodeJS, Express, Bootstrap, Tailwind CSS

DEV TOOLS

GitHub, VS Code, Figma, IntelliJ IDEA

PROJECTS

EcoLearn – Environmental Educational platform for School students

Tech Stack: ReactJS, NodeJS, ExpressJS, MongoDB

- Built EcoLearn, a gamified web platform that educates students on environmental sustainability through interactive lessons, challenges, and real-world eco activities.
- Implemented eco-point tracking, school-level leaderboards, and reward mechanisms to motivate consistent sustainable practices.
- Developed a scalable web architecture enabling activity validation, progress analytics, and engaging visual feedback for learners.

PickMyLap - Laptop Suggestion Platform

Tech Stack: ReactJS, NodeJS, ExpressJS, MongoDB

- Built a web-based laptop recommendation system using the MERN stack with TensorFlow.js for real-time, client-side ML inference.
- Developed a hybrid recommendation engine combining content-based filtering (specs/features) and collaborative filtering (user patterns).
- Entire system built in JavaScript for high performance, fast load times, and privacy-focused ML execution in-browser.

Inventory Management System, [Link](#)

Tech Stack : JAVA, JDBC, MySQL

- Built a console-based inventory management system with user and admin roles using Java and JDBC.
- Integrated MySQL database for real-time item tracking, stock updates, and secure user authentication.
- Implemented CRUD operations, exception handling, and modular code structure for scalability and maintainability.

CERTIFICATIONS & ACHIVEMENTS

SIH2025 - Smart India Hackathon selected among the finalists for a national-level innovation challenge, demonstrating strong problem-solving and collaborative skills.	08/12/2025
HITAM Hackathon  Secured a spot among the top 10 teams for building an innovative tech solution within 24 hours.	09/05/2025
Full Stack Development (MERN)  Completed intensive hands-on training covering frontend, backend, and database development for scalable web Application.	10/09/2025
